#MICROGALLERIES

Micro Galleries reclaims disused and forgotten spaces and reactivates them as tiny open-air galleries that are free and accessible to the local community. It features work that challenges ingrained ideas, blurs the line between street art and fine art, and aims to help change the way we see the world, our environment and our community - even for a micro moment.

Featuring more than 30 international artists from France, Finland, USA, Australia, Iran and Hong Kong (to name a few), and over 12 local Indonesian artists - **Micro Galleries** sneaks up on you from lane ways, scraps of forgotten land, ignored walls, market squares and unexpected potholes. Wander about, discover new art and don't be surprised if they've disappeared, moved, or been changed by passers by - it's all part of the experience.

Join a free tour, grab a map, download on your phone or come along to our opening night in the market place for music, tarp surfing, projection work and a floating installation on the river, or join us at Lingkara Laboratorium for a night of video art, music and food! Experience the different ways artists are changing the world, and your town...in small and creative ways.

Live Interaction Weekend
2 - 4 OCTOBER 2015
